marlin

ROLL OVER PFD

This PFD has been certified to the Australian Standard AS4758.1

Stay safe as you spend time on the water. Marlin has developed a Roll Over PFD which allows the wearer to roll over when face down in the water. This PFD has been certified to the highest Australian Standard AS4758.1

- Heavy-duty zipper closure ensures a snug and secure fit.
- Roll over foam specifically designed and placed to turn the wearer to stay face up in the water.
- Comfortable to wear.

**FACE THE SKY
NOT THE WATER!**

When you're in the water, it's too late to worry about whether your safety gear can stand up to the environment. You need to know before the unthinkable happens. With Marlin products on you, you'll know the odds just got better.

Our product development process starts with real world feedback from boaters, fishermen, sailors,

kayakers, and canoeists. With their invaluable input, our product engineers continue to develop industry- leading technologies that improve your chances in the water and also help avoid overboard situations by making safety more comfortable.

For more than 40 years Marlin has had you covered.
