

The Omega logo is displayed in a bold, blue, sans-serif font. The letter 'O' is stylized with a circular cutout in the center. A small 'TM' trademark symbol is positioned to the upper right of the 'A'. The logo is set against a background of a clear blue sky with scattered white clouds.

OMEGA<sup>TM</sup>

The Flowt Commercial logo is presented in a black rectangular box. The word 'FLOWT' is written in a large, bold, orange font, with the 'O' featuring a 3D cube-like design. Below it, the word 'COMMERCIAL' is written in a smaller, bold, white font. The background of the entire page is a split image: the left half shows a calm blue sea under a clear sky, while the right half shows a dark, stormy sea under a heavy, dark sky with a bright lightning bolt striking down.

## Type I

Off-Shore Life Jacket/minimum buoyancy requirement 22.0 lbs. Best for open, rough or remote water, where rescue may be slow coming.

Advantages:	Floats you the best. Turns most unconscious wearers face-up in water. Highly visible colors
Disadvantages:	Bulky
Sizes:	Two sizes fits most children and adults

## Type II

Near-Shore Buoyant Vest/minimum buoyancy requirement 15.5 lbs. Good for calm, inland water, or where this is a good chance for fast rescue.

Advantages:	Turns some unconscious wearers face-up in water. Less bulky, more comfortable than Off-Shore Life Jacket.
Disadvantages:	Not for long hours in rough water. Will not turn some unconscious wearers face-up in water.
Sizes:	Infant through adult

## Type III

Flotation Aid/minimum buoyancy requirement 15.5 lbs., good for calm, inland water, or where there is good chance of fast rescue.

Advantages:	Generally the most comfortable type for continuous wear. Designed for general boating or the activity that is marked on the device. Available in many styles, including vests and flotation coats.
Disadvantages:	Wearer may have to tilt head back to avoid going face-down. In rough water, a wearer's face may often be covered by waves. Not for extended survival in rough water.
Sizes:	Many individual sizes from small-child through adult.

## Type IV

Throwable Device/minimum buoyancy requirement- Ring buoys 16.5 lbs., Boat cushions 18.0 lbs. Good for calm, inland water with heavy boat traffic, where help is always nearby.

Advantages:	Can be thrown to someone, good back-up to wearable PFD's. Some can be used as a seat cushion
Disadvantages:	Not for unconscious persons. Not for non-swimmers or children. Not for many hours in rough water.
Kinds:	Cushions, rings, and horseshoe buoys.

## Type V

Special Use Devices/minimum buoyancy requirement 15.5 to 22.0 lbs. Only for special uses or conditions. See label for limits of use. Varieties include board-sailing vests, deck suits, work vests, hybrid PFD's and others.

Advantages:	Made for specific activities, such as white-water rafting.
